ABOUT US

Flowtools is a leading offshore services company, providing support to the oil, gas and renewable sectors. Our customers benefit from our abundant experience in drilling, well testing & workover, decommissioning, well intervention, rentals & sales. We also offer units on charter hire and provide rig move support.

Flowtools operates in the Middle East and Asia and has over twenty years' experience in the oil and gas industry.

We strive to exceed our customers' expectation by providing cutting edge solutions with innovation technology.

Our team of dedicated and highly experienced personnel ensures safe and successful execution of projects globally.

VISION

To strive to maintain regional leadership in providing offshore solutions including drilling services, decommissioning, well intervention, thru tubing, rentals and sales.

QHSE

It is our policy to assure the QHSE integrity of our processes and facilities at all times and at all places. One of our principal foundations is to ensure highest safety standards for employees and for the natural environment.

MISSION

To work with our customers to provide a full service experience that results in satisfaction, measurable cost efficiencies, and sustainable performance improvement.

OUR PEOPLE

We have extraordinarily talented and committed individuals who share a passion for achieving the very best in everything they do. Combined with a strong operational **philosophy** and experience, our people are our biggest asset.

"Our people are our biggest asset"

FLOWTOOLS

INVENTORY MANAGEMENT

Inventory Planning

Warehousing

Logistics & Distribution

FT provides inventory management solutions to a number of drilling contractors. A careful analysis of a client's consumption pattern is undertaken and inventory is stocked at our warehouse based on that. All items are supplied on call at prices that are fixed for a period of time.

ADVANTAGES

- Fixed prices for a stipulated period of time
- The end user has no investment in inventory
- Reduction in freight and transportation costs
- Inventory is available at hand in case of an emergency
- Savings in warehousing and personnel costs
- We take on your inventory planning

FLOWTOOLS

SALES & DISTRIBUTION

FT is a major distributor & stockiest of oilfield drilling equipment, production equipment, spares and consumables. A sizeable inventory is held at our central warehouse in Dubai, UAE with satellite stock placed at strategic locations.

A FEW OF THE ITEMS WE STOCK

- Centrifugal pump packages – skidded pump with explosion proof, 55 Deg Ambient motors
- Shale Shakers/Mud Cleaners & Screens
- Mud Agitators, Mud Guns, Mud Hoppers
- Desilters & Desanders
- Spares and consumables for all brands & models of triplex mud pumps including liners, pistons, valves, seats etc.
- Rotary hoses
- Handling Tools
- Complete Range of Fishing Tools
- BOP Accessories
- High Pressure Hoses

The above is only a brief list; a complete inventory listing is available upon request.

FLOWTOOLS
